MEMORANDUM FOR: [redacted] 25X1
 Director, Foreign Broadcast Information Service

FROM : [redacted] 25X1
 Director, National Photographic Interpretation Center

SUBJECT : Rotational Assignment for [redacted] 25X1

1. [redacted] as I mentioned on the phone, I had [redacted] file reviewed by the Imagery Exploitation Group for a possible rotational assignment. Although we do not have a GS-14 management position for [redacted] I would propose to assign him to IEG for at least one year to assist with the coordination and activities related to the preparation of the quarterly Strategic Arms Limitation publication. I believe this assignment will benefit both parties and that [redacted] will quickly learn about the Center and our relationships with the Intelligence Community. [redacted] 25X1
 25X1

2. I do not consider it appropriate to initially assign [redacted] to a management position, inasmuch as he lacks the necessary experience to provide specific management and policy guidance to imagery analysts and intelligence research and production support personnel. If he is placed on a two-year assignment, and if his performance during the first year warrants, I will consider him for a management position during the second year. [redacted] 25X1

3. I thank you for forwarding us Gary's file and I believe we can provide him an interesting, challenging, and rewarding assignment.

SUBJECT:

Possible Rotation - [REDACTED]

25X1

Rae:

1. I believe I mentioned the other day that we are searching for a rotational assignment for [REDACTED] GS-14, currently deputy chief of the FBIS Bangkok Bureau. Gary is 38 years old, and will be returning to Headquarters in August 1985. He is considered one of our best prospects for the future and has indicated he would like to be considered for a broadening rotation assignment.

25X1

2. I would appreciate your people taking a look at his file to see if there is any interest. We could arrange to bring him back for an interview, or he could be interviewed in August if it looks favorable. Please note that he served 3 years as a junior officer in the Office of Imagery Analysis.

3. If he is qualified, I believe some sort of line management position would be the most beneficial, although a staff position might be useful if he can improve his knowledge of management.
